## PROFESSIONAL SUMMARY

Results-driven **Final-Year B.Tech CSE student** specialising in **Backend Development and Java Architecture**. Proficient in **Core Java, Spring Boot, Hibernate, Servlets, and MySQL** with hands-on experience building scalable REST APIs and database-driven applications. Familiar with **AI automation tools** including n8n, having built a WhatsApp chatbot agent and worked with Generative AI workflows. Actively seeking a backend or software engineering role to contribute robust server-side solutions.

## WORK EXPERIENCE

### Java Full Stack Development Intern

Sept 2024 – Feb 2025

J/Qspider, Noida

- Completed intensive training on **Spring Boot, Hibernate, Core Java, and MySQL**, focusing on server-side architecture and scalable API design.
- Developed and integrated **RESTful backend APIs** with structured database schemas for full-stack web applications.
- Designed server logic, optimised SQL queries, and implemented endpoints for consumer-facing applications, reducing query response time by improving indexing strategies.

## PROJECTS

### Blog-Platform (Web Based story Generator)

Jan 2025 – Apr 2025

**Tech Stack:** Nextjs · React · Supabase · HTML5

→ [GitHub Repository](#)

- Built a full-stack Blog Platform using **authentication and database integration** Implemented user signup, login, logout, and post creation features with responsive UI design.
- Used **GitHub for version control** and Vercel for cloud deployment and hosting Gained hands-on experience in frontend development, backend integration, debugging, and deployment workflows.
- Deployed on **.Vercel**

### Project 2 – Responsive Landing Pages & WhatsApp AI Automation Agent

2024 – 2025

**Landing Pages:** HTML5 · CSS3 · JavaScript · Responsive Design

**AI Agent:** n8n · WhatsApp API · Webhook Automation · Prompt Engineering

→ [Live Demo](#) → [GitHub Repository](#)

- Developed **responsive landing pages** using HTML5, CSS3, and JavaScript with mobile-first layouts, smooth scroll animations, and cross-browser compatibility.
- Built a **WhatsApp AI agent using n8n** that automatically receives user messages via webhook and replies with relevant answers using connected AI nodes.

## TECHNICAL SKILLS

### Backend & Java

Core Java · Advanced Java (JDBC, Servlets) · Spring Boot · Hibernate ORM · OOP Design Patterns · RESTful API Development

### Databases

MySQL · SQL Query Optimisation · Relational Schema Design · Transaction Management · Collection Frameworks

### AI & Automation

n8n Workflow Automation · WhatsApp Chatbot Development · Webhook Integration · Prompt Engineering · Generative AI Tools (Replit, Antigravity)

### Frontend & Web

HTML5 · CSS3 · JavaScript (ES6+) · Responsive Design · DOM Manipulation

### Tools & DevOps

Git · GitHub · Eclipse IDE · VS Code · Postman · Maven (Basic)

## CERTIFICATIONS & ACHIEVEMENTS

### AI Agents Hackathon – Participation Certificate · MNNIT Prayagraj

Participated in AI Agents Hackathon; contributed to building "GURUJI AI", a WhatsApp-based chatbot designed to answer student queries using n8n automation workflows.

### Advanced Management Development Program (MDP) – MNNIT Prayagraj

Completed specialised leadership and team management training focused on professional growth and cross-functional collaboration.

**Oracle Foundation Associate – Professional Development Certificate**

provides a structured overview of cloud-based data architectures. It focuses on validating a broad understanding of data management strategy rather than requiring deep, hands-on coding or administration skills

## EDUCATION

---

**Bachelor of Technology – Computer Science & Engineering (B.Tech CSE)**

Aug 2022 – Aug 2026

*Prayag Institute of Technology & Management / AKTU University · GPA: 7.35 (Ongoing)*
